

Our Commitment to Sustainability and Going Green

Hirsh Industries, LLC. makes every effort to operate our business in an environmentally responsible manner.

We are committed to comply with all applicable environmental laws and regulations, and recognize that reducing the environmental impact of our products and operations is an important part of the value we deliver to our customers. We strive to achieve environmental excellence and work with our employees, customers, partners and suppliers to meet the environmental commitments summarized below.

- Promote relevant “Green” initiatives by way of our employees, strategic partners and suppliers.
- Be guided by the principle of continuous improvement of environmental performance.
- Train employees on our policy and instill environmental responsibility as a corporate value.
- Comply with applicable environmental laws and regulations and operate our facility with all necessary environmental permits, approvals, and operational controls.
- Strive to buy, sell and use environmentally friendly products whenever the market place allows.
- Design our products to be safe to use and to minimize their environmental impact while meeting all applicable U.S. and international government environmental standards and regulations.
- Continuously review our Environmental “Green” Statement and ensure it remains appropriate to the nature, scale and environmental impacts of our activities, products, and services.

A Sustainable Future Through Green Innovation

Our mission is to champion sustainability by designing and implementing eco-friendly solutions that minimize environmental impact. We are dedicated to advancing green technologies and practices across all aspects of our operations, from resource management to product development.

ENERGY

Hirsh Industries aims to have 5% renewable electricity from Scope 2 emissions by 2040.

SUSTAINABLE

50% of Hirsh Industries commercial grade products use non-EPS packaging.

TRANSPORTATION

Hirsh Industries aims to reduce 75,000 miles of road transport by 2027.

RENEWABLE

Beginning in 2022 our corporate headquarters purchased 100% renewable electricity.

PACKAGING

Plastic packaging mass was reduced by 60% in 2023 compared to 2021 for one of our largest retail customers.

RECYCLED

Hirsh Industries steel products are made with recycled content wherever possible.
